

MERCHANT SERVICES

Market Challenge

Businesses are facing increased pressure from their customers to broaden acceptance of credit cards. Meet customer demands while containing the cost of card acceptance with Billtrust Merchant Services.

Reduce Costs & Gain Control

Level II / III Interchange Optimization

Web and phone payments made with commercial and purchasing cards qualify at interchange rates up to 30% lower than standard fees.

Timed Acceptance

Limit card payment to a set number of days after an invoice is issued and/or waive early pay discounts when a card is used.

Selective Acceptance

Identify a subset of customer accounts which can either be authorized OR prohibited to make card payments.

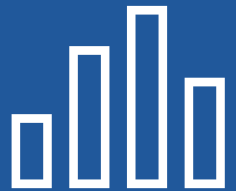

Third-Party Payment Capture

Automate the acceptance of virtual card payments to eliminate manual keying and speed payment application.

30%

lower than standard fees.

Getting Started

If you're currently accepting credit card payment, Billtrust can analyze your merchant statements to uncover potential cost savings.

Please contact your Billtrust account manager to request more information on a savings analysis as well as the application to apply for Billtrust's Merchant Services program.
